

GOED'S TECHNOLOGY & INNOVATION ROUNDUP EVENT

February 27 | 10 am – 12:30 pm EST

Making Your Omega-3 Business Run Smoother.

Artisan Industries

Artisan designs and manufactures systems for purification and separation across the process industries. We specialize in: Solvent Recovery - Extraction - Distillation - Evaporation - Concentration - Purification - Stripping - Waste Reduction & Drying.

Bruker

Bruker Optics is the leading manufacturer and supplier of FT-NIR solutions for edible oil industry. Our spectrometers can analyze both, liquid and solid samples in seconds and are the ideal tool for the rapid analysis of marine and plant-based oils. Dedicated parameters commonly analyzed with FT-NIR include individual omega-3 fatty acids as well as oxidation status. Ready-to-use calibrations for marine oils are available for a quick and efficient start.

Camlin Fine Sciences, Ltd.

Camlin Fine Sciences proudly offers a vegan, clean, and traceable omega-3 fatty acid. Leveraging the integrated value chain and technical expertise of AlgalR, CFS has introduced a Biosus™ DHA using an indigenous process. Biosus™ follows 5S principles: Source, Safety, Seasonality, Selection, and Sustainability, that guides us toward health and harmony with nature.

Eurofins

Eurofins is the world leading food and feed testing laboratory group, deploying a comprehensive range of state-of-the-art analytical techniques in order to support its clients' increasingly stringent quality and safety standards. Eurofins has been supporting GOED and the fish oil industry for years. Eurofins can perform all the testing parameters outlined in the GOED Voluntary Monograph and works with some of the largest producers in the world.

Innocon S.A.

Innocon S.A. was created to pioneer and deliver innovative solutions to our clients. It has remarkable experience in fats and oils, offering analytical services with cutting-edge technology as well as the development of industrial products, from bench scale to pilot plant.

Köster Marine Proteins

Koester Marine

Koester Marine Proteins is a German trading and logistics company with a tank farm in Belgium. It has always been our aim to select and handle our high-quality food raw materials with the greatest possible care in order to always supply our customers with the best possible quality.

Lipid Analytical Labs

Lipid Analytical Laboratories specializes in the comprehensive analysis of lipids, including various lipid forms and their fatty acid components. With a deep understanding of the agri-food sector, farming practices, and the importance of quality oils and supplements, our dedicated team of experts offers unparalleled proficiency in assessing and quantifying essential fatty acids. We are the trusted global partner for businesses seeking to validate their products, optimize quality control, and unlock the full potential of lipid-based solutions.

Novozymes

With two decades of experience as a global BioSolutions leader, Novozymes has supported more than 100 oil processing plants globally. Novozymes offers BioSolutions for applications across the oils and fat value chain including pretreatment, Ethylation and rTG condensation. Expect more opportunities to diversify and grow your business.

Omega Quant Analytics, LLC

OmegaQuant is an independent, CLIA-certified lab that offers nutritional status testing to researchers, clinicians and the public. OmegaQuant performs analysis for commercial and academic research collaborators and for consumers interested in monitoring their nutritional status in both blood and breast milk. OmegaQuant's founder, Dr. Bill Harris, is the co-inventor of the Omega 3 Index test. Its goal is to offer the highest quality fatty acid analytical services to researchers and to provide simple tests of nutritional status to consumers, with the ultimate purpose of advancing the science and use of certain nutrients to improve health.

ORIVO

ORIVO utilises revolutionary testing technologies based on proven NMR-, DNA- and IRMS-methodologies able to verify raw-material species and region of origin. The core of ORIVO is our unique, laboratory analysis-based origin verification. We developed this verification program to provide honest and responsible brands and manufacturers of food and feed related products with a tool to document transparency in a crowded marketplace.

Sochim

Sochim is an Italian company that has three main business units: ingredients, CDMO, and ready finish products for private label. Sochim can offer a full service realization of dietary products and food supplements, with customized packaging solutions. We are able to produce all the solid preparations described in Pharmacopeia: coated tablets, gastro resistant and modified release tablets, chewable tablets, multilayers tablets, hard capsules, powders and granulates in sachets, orosoluble powders in sticks, and softgels.

W.R. Grace & Co.

W.R. Grace & Co. offers custom engineered chromatography resins and excipients tailored to customer specifications. Grace products help omega-3 producers improve purity, efficiency, reproducibility and accuracy through raw materials and processing aids designed for small scale discovery through bulk production. Streamline discovery, save time, and reduce guesswork.
